Map Notes: Wilderness Study Areas and Areas of Critical Environmental Concern are designated and managed by the Bureau of Land Management. Forest service roadless areas include 2001 roadless rule and 2008 Colorado rule areas. COGCC Roan Rim Buffer is an Area of Concern with development restrictions. Greater sage grouse active leks (production areas) are COGCC sensitive wildlife habitat. Lek sites are COGCC restricted surface occupancy areas. All greater sage grouse habitat prepared by CDOW NDIS as of 9/2010.
